

**Trial 1**

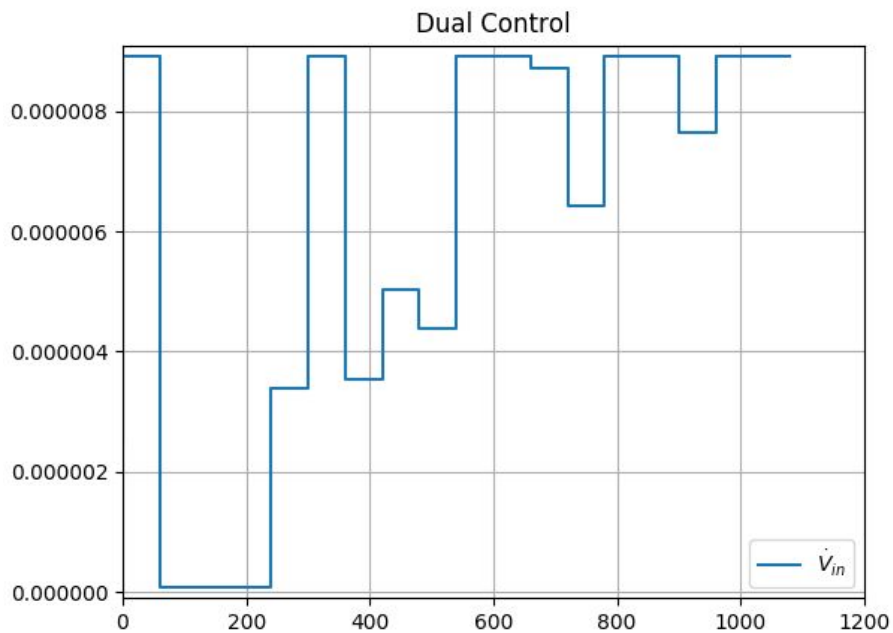

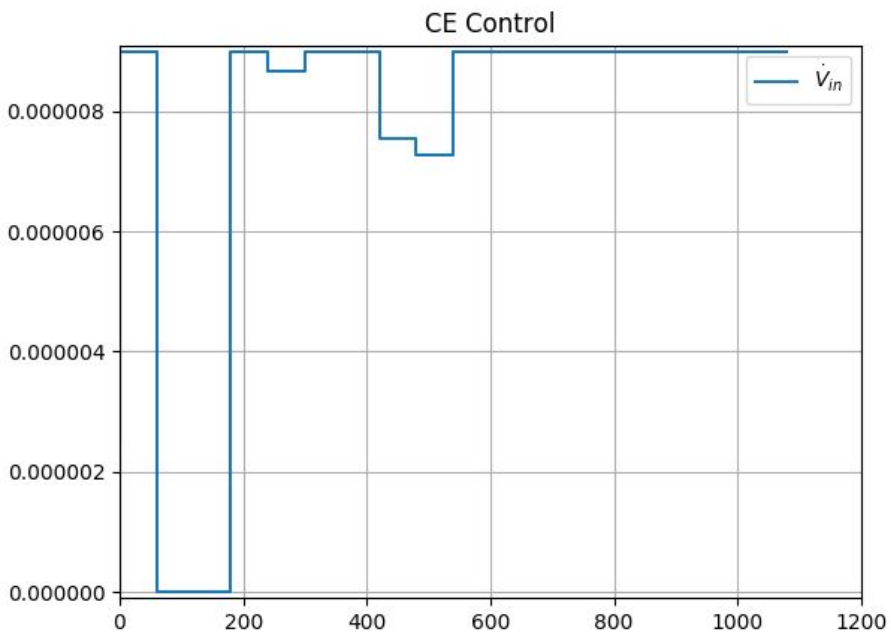

# Objective function (maximize moles of C)

# State 5

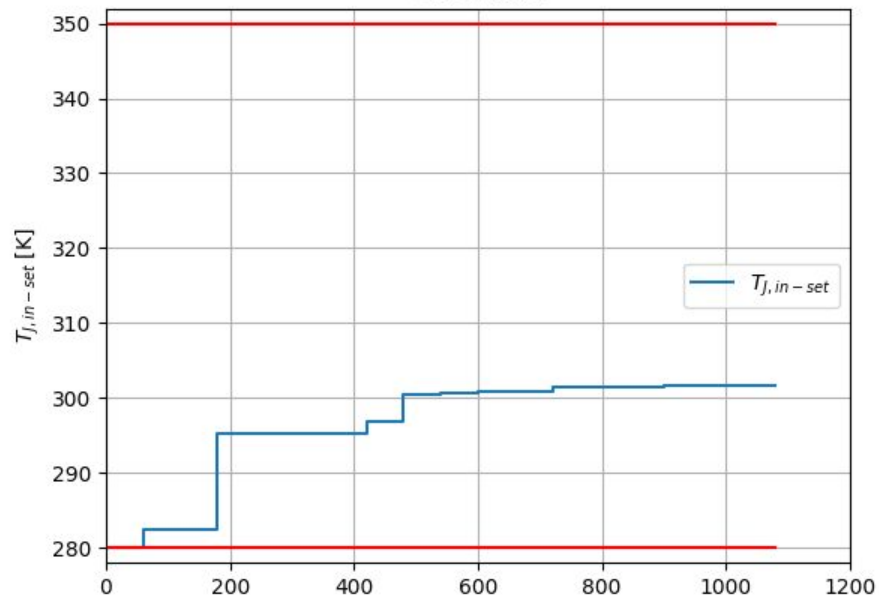

# Input 1

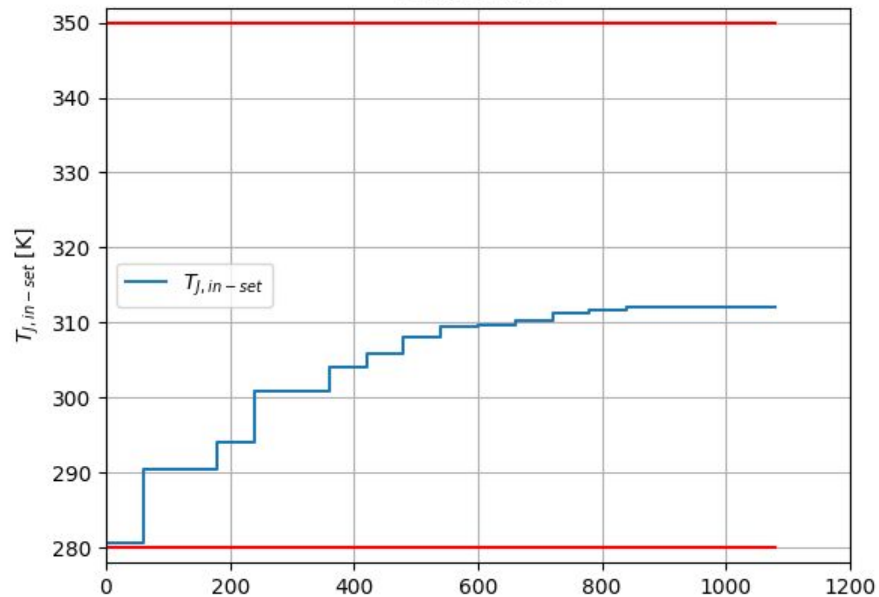

# Input 2

CE Control

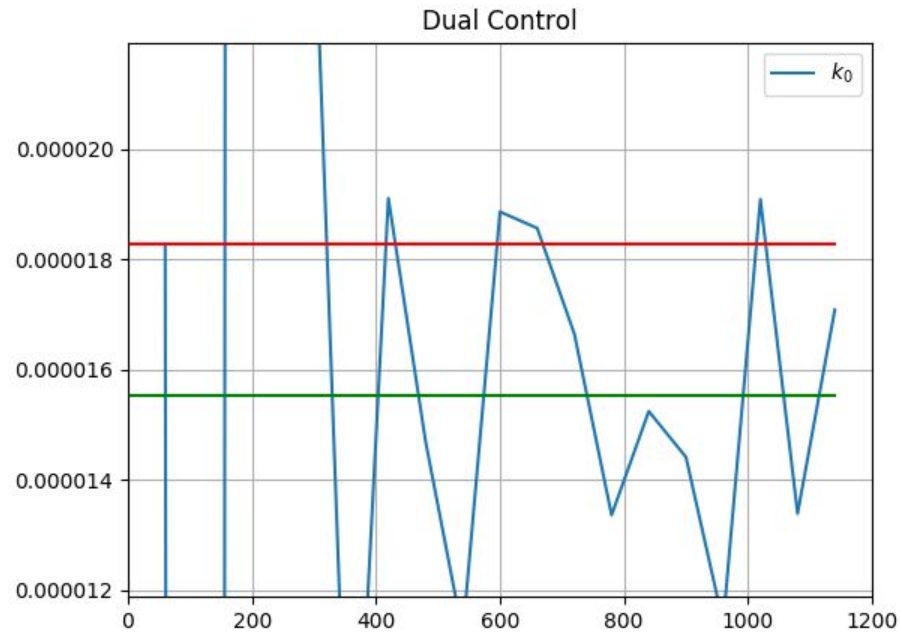

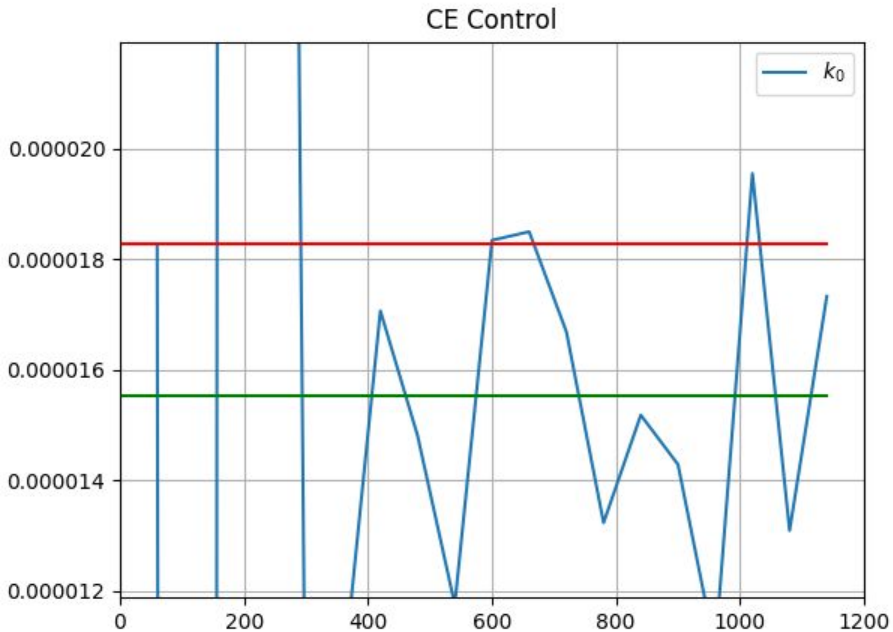

Dual Control

# Parameter estimate 1

Red = theta nominal

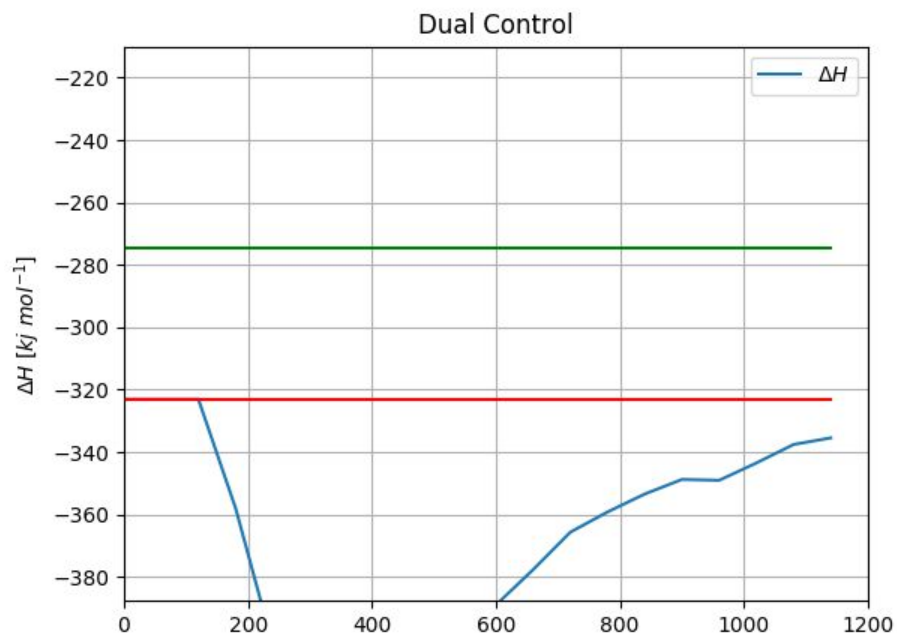

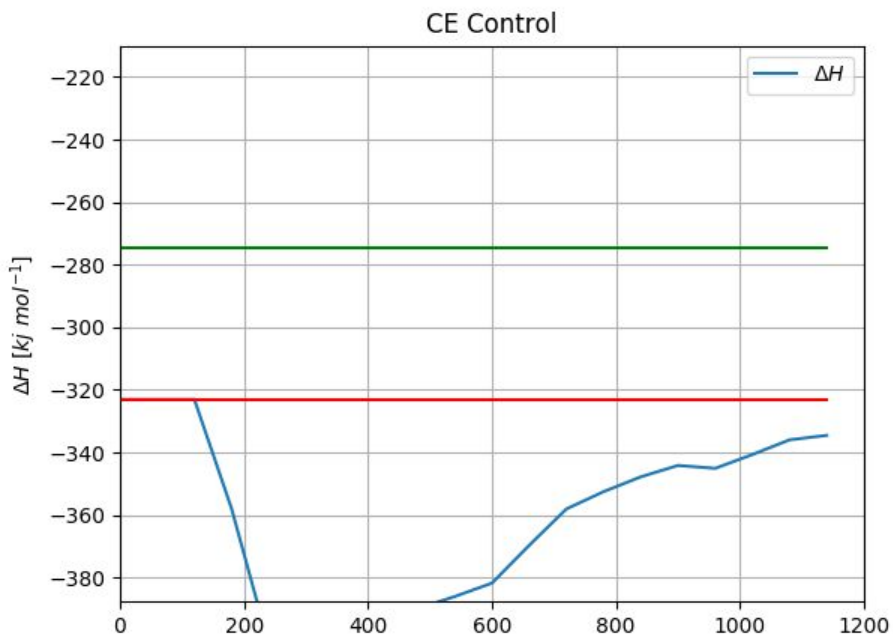

Green = theta actual

# Parameter estimate 2

Red = theta nominal

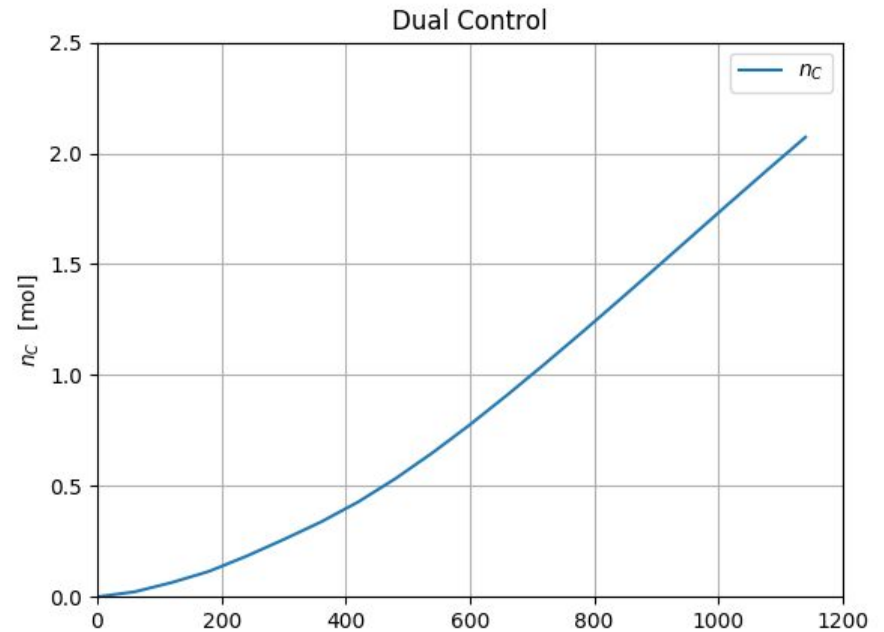

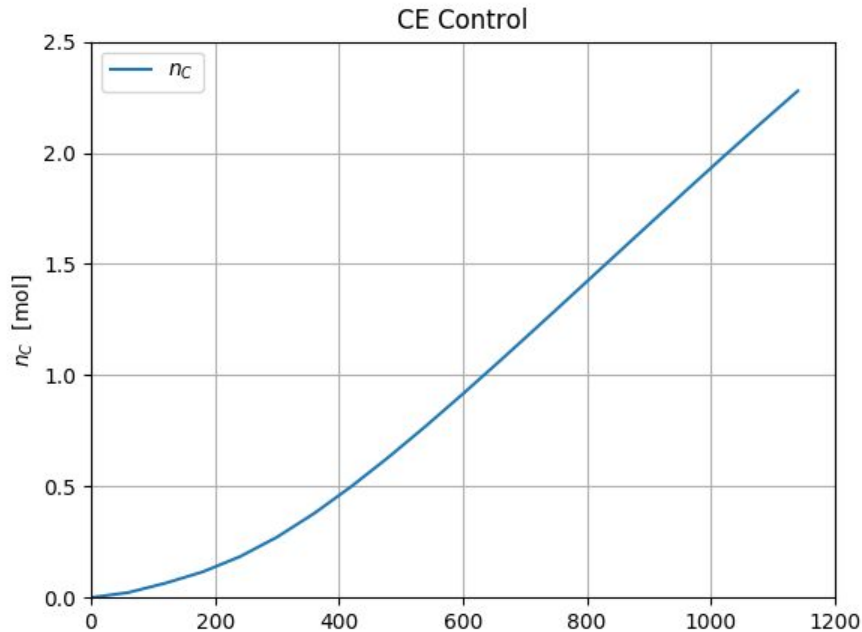

Green = theta actual

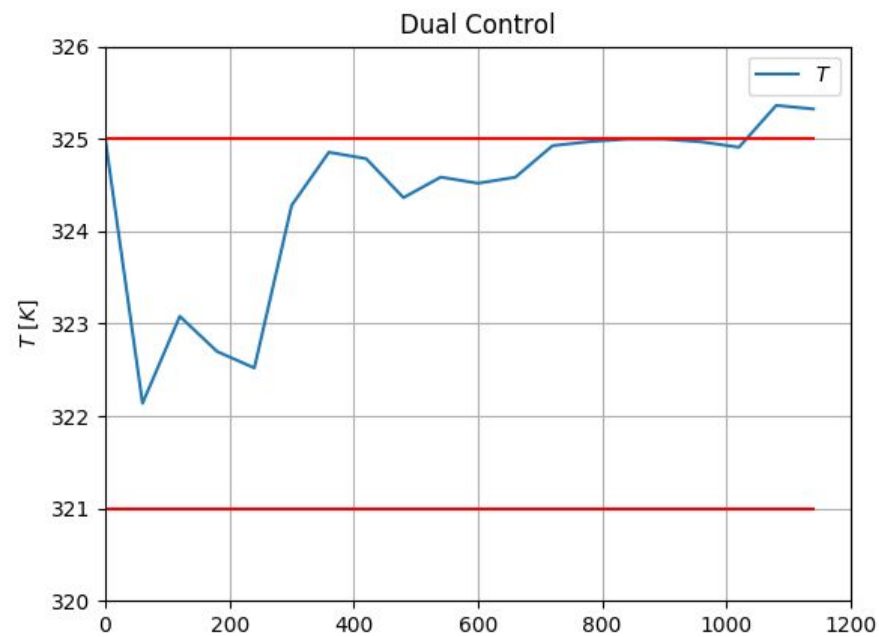

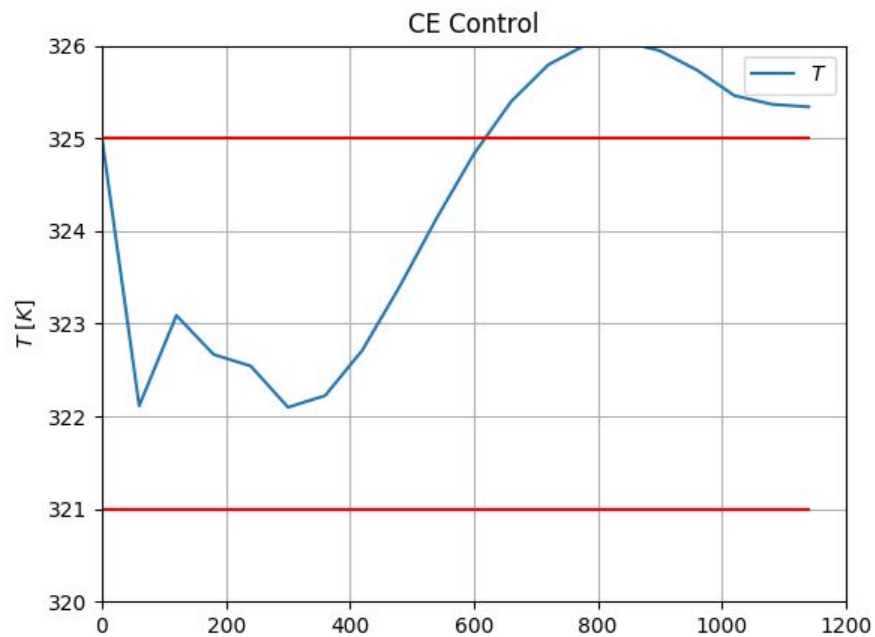

# Trial 2

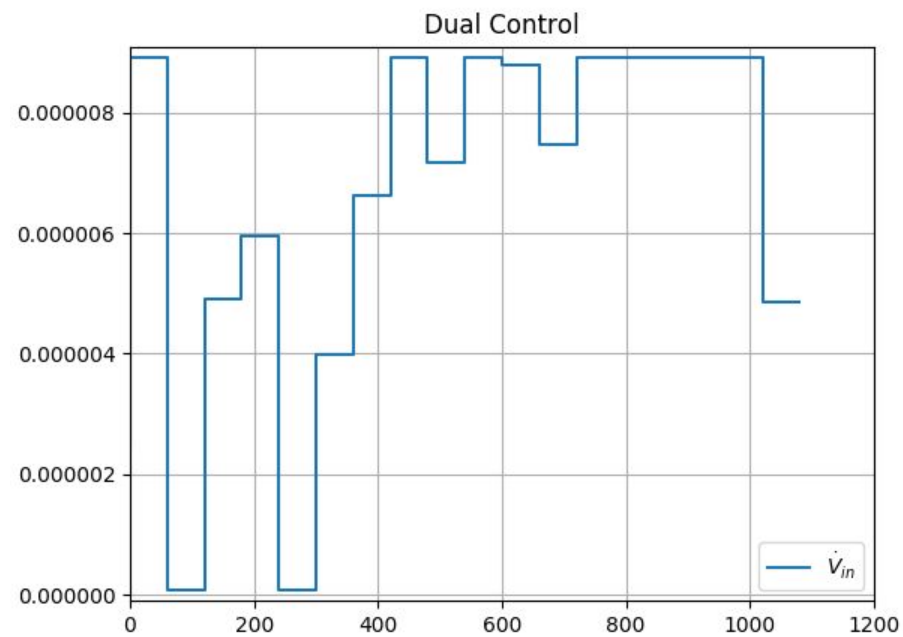

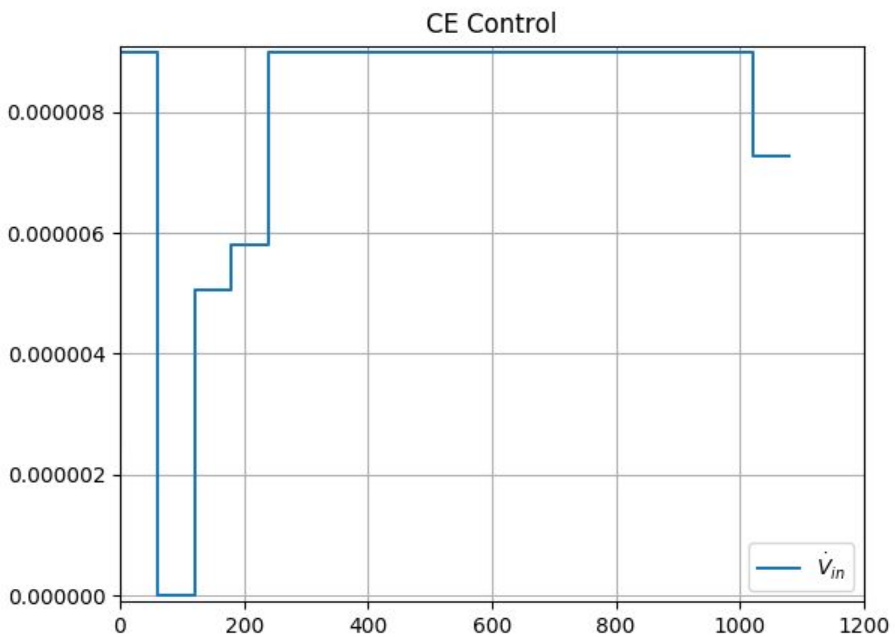

# Objective function (maximize moles of C)

# State 5

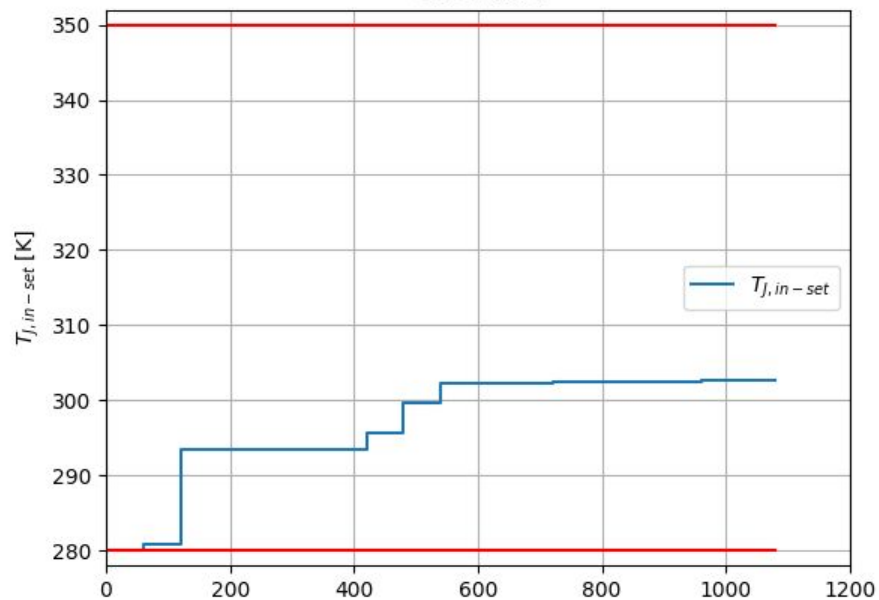

# Input 1

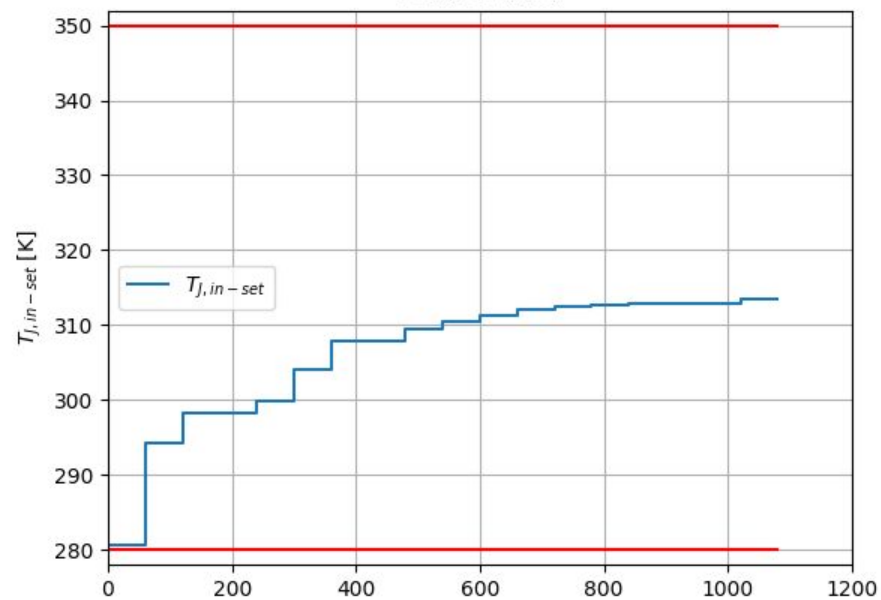

# Input 2

CE Control

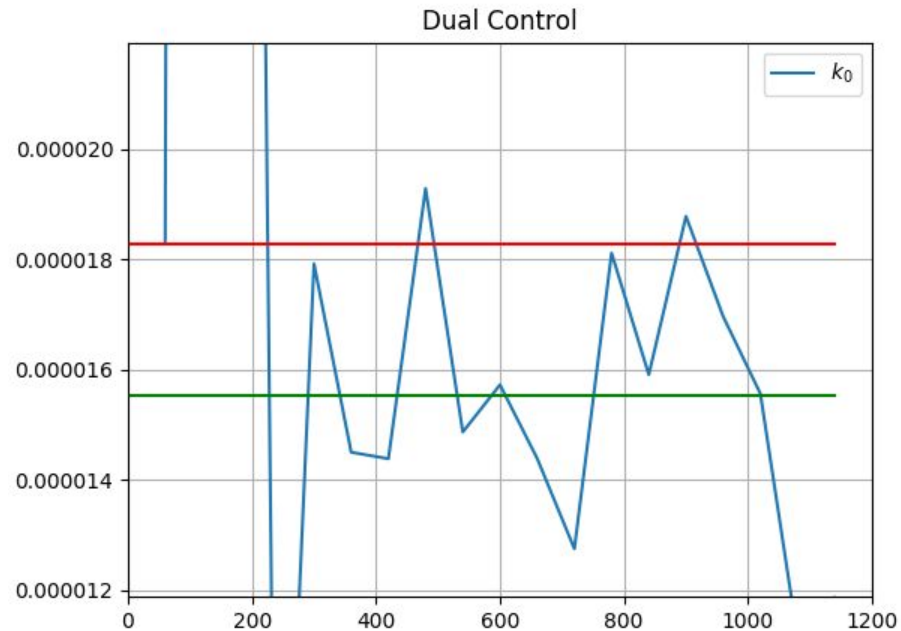

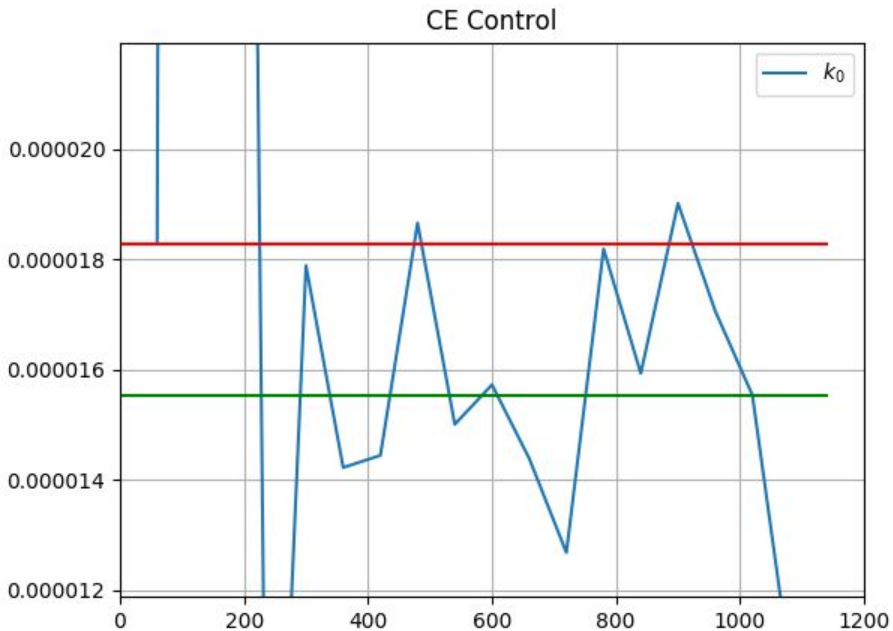

Dual Control

# Parameter estimate 1

Red = theta nominal

Green = theta actual

# Parameter estimate 2

Red = theta nominal

Green = theta actual
